

INUMBRA WALL MOUNTED SHELVING

3007

DISTRICT EIGHT

Inumbra designed by Michele De Lucchi is a reinvention of modular components that build a shelving system. From sculptural stature to discreet details, Inumbra portrays the Italian architect and designer's renowned sensibility for norm-defying form, while highlighting District Eight's technical capability in pared-back utility and clarifying aesthetic.

Oak shelves and post / Steel components / Brass details

INUMBRA COLLECTION BY MICHELE DE LUCCHI

Michele De Lucchi is an Italian designer and architect - one of the greatest representatives of Italian design of the last few decades. He is a prominent figure in movements like Alchimia and Memphis.

He has designed furniture for the most known Italian and European companies. For Olivetti, he was Director of Design from 1988 to 2002. He has completed architectural projects in Italy and abroad, including cultural, corporate, industrial and residential buildings.
